PART I. GENERAL

1.1 INTENT TO AWARD WITHOUT DISCUSSIONS

The Government intends to evaluate all proposals received and award a contract without conducting discussions; therefore, the initial proposal shall conform to the solicitation requirements and should contain the best offer from a technical and price perspective.

1.2 COMPETITIVE RANGE

If discussions are deemed necessary to maximize the Government's ability to obtain the best value, discussions will be held with those Offerors in the competitive range. The Government may limit the number of proposals in the competitive range to the most highly rated proposals, considering price and technical merit.

1.3 ENFORCEABILITY OF THE PROPOSAL

The proposal must set forth full, accurate and complete information as required by this solicitation. The Government will rely on such information in the award of a contract. By submission of the offer, the Offeror agrees that all items proposed will be utilized for the duration of the contract and any substitutions will be equal or better than as proposed and accepted for contract award and shall require prior Contracting Officer's approval.

1.4 PREFERENCE FOR MULTIPLE AWARDS

A MACC is a contract awarded from a single solicitation and may result in award to multiple contractors. This procurement consists of one solicitation with the intent to award approximately five (5) Indefinite Delivery Indefinite Quantity (IDIQ) contracts to the offerors whose proposals, conforming to the RFP, represent the best value – the proposals most advantageous to the Government, price and technical factors considered. Successful offerors will compete for future work during the term of the contract.

PART II. EVALUATION FACTORS/RATING SCHEME

2.1 EVALUATION CRITERIA AND BASIS OF AWARD

The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contracts; to negotiate with offerors in the competitive range; and to award the contracts to the offerors submitting the proposals determined to represent the best value—the proposals most advantageous to the Government, price and other factors considered.

The Government intends to evaluate proposals and award contracts without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

The contracts resulting from this solicitation will be awarded to those responsible offerors whose offers, conforming to the solicitation, are determined to be the most advantageous to the Government considering "Price" and "Non-Price" evaluation factors. Award may be made to other than the lowest priced offerors or other than the highest technically rated offerors. The Non-Price evaluation factors are:

- Factor 1 – Technical Approach
- Factor 2 – Experience
- Factor 3 – Past Performance
- Factor 4 – Safety
- Factor 5 – Technical Solution

Non-Price Factors 1 – 3 will be evaluated in Phase I. Factor 1 will be rated Acceptable or Unacceptable. If an Offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. Non-Price Factors 4 and 5 will be evaluated in Phase II. In making the best value award decision after Phase II, the Government will consider

Non-Price Factors 2 – 5 and Price. The relative order of importance of the Non-Price evaluation factors is that Technical Factors 2, 4, and 5 are equal to each other and when combined are of equal importance to the performance confidence assessment (Factor 3 – Past Performance). The combined Non-Price evaluation factors are approximately equal to price. All ratings from Phase I will be carried into Phase II unless new or revised information is provided.

The importance of price will increase if the Offerors' non-price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-price proposal's superiority to the Government. Award will be made to the responsible Offeror(s) whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal.

2.2 EVALUATION FACTORS FOR AWARD

This Two-Phase Design-Build (D-B)/Design-Bid-Build (D-B-B) procurement will result in the award of approximately five (5) Indefinite Delivery/Indefinite Quantity (IDIQ) type contracts under a Multiple Award Construction Contract (MACC) for a one-year base period with provisions for the exercise of four one-year option periods.

For this Two-Phase D-B/D-B-B procurement, Factors 1-3 will be evaluated in Phase I. Factor 1 will only be rated Acceptable or Unacceptable. If an Offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. Factors 4 – 5 will be evaluated in Phase II.

Phase I of the solicitation is a narrowing process of offerors based on responsiveness and evaluation of non-price technical factor submittals. Based on the Phase I evaluation criteria, the most highly rated offerors will proceed to Phase II. Phase II offerors will be required to submit both a Price Proposal and Non-Price Proposal.

The relative order of importance of the Non-Price evaluation factors is the Technical Factors – Factor 2 – Experience, Factor 4 – Safety, and Factor 5 – Technical Solution – are of equal importance to each other and, when combined are equal in importance to the past performance evaluation/performance confidence assessment factor, Factor 3. Factor 1 – Technical Approach will be rated Acceptable or Unacceptable. When the proposal is evaluated as a whole, the technical factors and past performance/performance confidence assessment factor combined (i.e., the Non-Price Evaluation Factors) are approximately equal to Price.

Phase I Non-Price Factors:

- Factor 1 – Technical Approach
- Factor 2 – Experience
- Factor 3 – Past Performance

Phase II Non-Price Factors:

- Factor 4 – Safety
- Factor 5 – Technical Solution

All ratings from Phase I will be carried into Phase II unless new or revised information is provided.

The distinction between experience and past performance is that experience pertains to the volume of work completed by a contractor that are comparable to the types of work described under the definition of recent, relevant

projects, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

(1) **Factor 1- Technical Approach**

(i) Solicitation Submittal Requirements:

The composition and management of the firms proposed as the Design-Build (D-B)/ Design-Bid-Build (D-B-B) Team for this contract will be evaluated in this factor.

The Offeror shall submit the following information:

(1) Provide a narrative describing the proposed primary construction firms and primary design firms for this contract and the rationale for proposing this arrangement. Provide the role, responsibilities, and contractual relationships between the various firms (see FAR Subpart 9.6). The offeror shall also include an organizational chart that clearly identifies the lines of authority between the entities. The organizational chart shall include key personnel and entities having significant roles in the proposal. The organization chart shall clearly show leadership responsibility of each key personnel or entity shown. If the experience of an entity is being claimed in Factor 2, that entity must be named in the above narrative and shown on the organizational chart.

The technical approach narrative shall be limited to one (1) double-sided page (or two (2) single-sided pages) including the organizational chart. The information requested in item #2 below is not included in this page limitation. Font size shall be a minimum of 12, Times New Roman.

(2) In addition to the narrative, the Offeror shall submit a signed copy of a joint venture agreement, partnership agreement, teaming agreement, approved mentor protégé agreement (MPA), or letter of commitment for each member of the Offeror's team identified above (e.g., joint venture member, partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.) in English.

(ii) Basis of Evaluation for Factor 1:

The assessment of the Offeror's technical approach will be used as a means to evaluate the organizational structure and teaming relationships proposed by the Offeror. This factor will be rated on an Acceptable or Unacceptable basis.

(2) **Factor 2- Experience**

(a) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

(1) Construction Experience:

Submit a minimum of three (3) and a maximum of five (5) relevant construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the RFP. For purposes of this evaluation, a relevant project is further defined as construction or repair projects with a construction contract value equal to or exceeding \$500,000 (or the equivalent foreign currency) with multiple construction trades to provide a complete and usable facility. At least one (1) construction project shall demonstrate experience in civil/site work construction, at least one (1) construction project shall demonstrate experience in work for the U.S. Government and at least one (1) construction project shall demonstrate experience in vertical construction.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment 1) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (i.e.: similarity of service/support, complexity, dollar value, contract type, use of key personnel (for services) and extent of subcontract/teaming). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. Provide applicable documentation on projects that were validated and/or certified through U.S. Green Building Council (USGBC) or the equivalent organization or process.

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects may be submitted for the Joint Venture members. Offerors who fail to submit experience for all Joint Venture members may be rated lower. Offerors are still limited to a total of five (5) projects combined.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

The Offeror may utilize experience of a subcontractor that will perform major or critical aspects of the requirement to demonstrate construction experience under this evaluation factor. The Offer must provide a letter of commitment and an explanation of the meaningful involvement that the subcontractor will have in performance of this contract. More weight may be given to the Offeror's projects than to those submitted for subcontractors."

(2) Design Experience

Submit a minimum of two (2) and a maximum of five (5) relevant design projects for the design team that best demonstrates design experience on relevant projects that are similar in size, scope, and complexity to the RFP. For purposes of this evaluation, a relevant project is further defined as vertical infrastructure construction or repair projects with a construction contract value equal to or exceeding \$500,000 (or the equivalent foreign currency) with two or more different engineering disciplines required in the design phase. At least one (1) construction project shall demonstrate experience in the design of civil/site work construction and at least one (1) construction project shall demonstrate experience in design of vertical construction.

Projects submitted shall be completed within the past five (5) years of the date of issuance of this RFP. For design-build projects, the design portion of the contract shall have been completed within the past five (5) years of the date of issuance of this RFP.

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole shall not be submitted as a project; rather Offerors shall submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment 1) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the

Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one (1) double-sided page (or two (2) single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP (e.g. unique features, area, construction methods). In addition, the description should also address any sustainable features for the project, including specific descriptions of those features. Provide applicable documentation on projects that were validated and/or certified through U.S. Green Building Council (USGBC) or the equivalent organization or process.

If an Offeror is utilizing experience information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the SF1442), the proposal shall clearly demonstrate that the affiliate/subsidiary/parent firm will have meaningful involvement in the performance of the contract.

The Offeror may utilize experience of a design subcontractor to demonstrate design experience under this evaluation factor. The Offer must provide a supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment and an explanation of the meaningful involvement for the design subcontractor.

(b) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience and depth of experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The Government will only review five projects for construction and five for design. Any projects submitted in excess of the five (5) for Construction Experience and five (5) for Design Experience will not be considered. Experience in the geographic area of Bahrain and/or UAE will be given additional weight.

Proposals demonstrating the capability to manage multiples relevant projects simultaneously may be considered more favorably than those that do not demonstrate this capability.

Relevant projects where the Offeror and the proposed design firm(s) have previously worked together may be considered more favorably than those that have not worked together.

Relevant projects that demonstrate design-build experience may be considered more favorably than those that do not have design-build experience.

Relevant projects that demonstrate experience with sustainable features may be considered more favorably than those that do not demonstrate experience with sustainable features.

Offerors who submit relevant projects that demonstrate experience self-performing relevant features of work may receive a higher rating than those who do not demonstrate self- performance.

(3) **Factor 3- Past Performance**

(a) Solicitation Submittal Requirements:

If a completed Construction Contractor Appraisal Support System (CCASS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for construction experience. If a completed AE Contractor Appraisal Support System (ACASS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for design experience. If there is not a completed CCASS or ACASS evaluation then submit Past Performance Questionnaires (Attachment 2A) for each project included in Factor 2 for both Construction Experience and Design Experience. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offerors shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offerors should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Oscar Becerril at oscar.becerril@eu.navy.mil.

Offerors may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 2 – Experience. Offerors may also address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Performance award or additional information submitted will not be considered.

(b) Basis of Evaluation:

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 2 – Experience and past performance on other projects currently documented in known sources. More emphasis will be placed on more relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor's performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the Offeror's past performance will be used as a means of evaluating the Offeror's probability to successfully meet the requirements of the RFP.

Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably in past performance and will receive a neutral Confidence rating.

1.1 GENERAL OVERVIEW OF MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC)

A Multiple Award Construction Contract (MACC) is a contract awarded from a single solicitation, and may result in award to multiple contractors. This procurement consists of one solicitation with the intent to award approximately five (5) Indefinite Delivery/Indefinite Quantity (IDIQ) contracts to the offerors whose proposals, conforming to the RFP, will be most advantageous to the Government resulting in the best value, price and non-price factors considered. The Government reserves the right to award less than or more than five (5) contracts, should it be deemed to be in the best interest of the Government to do so. Successful offerors will compete for future work during the term of the contract

Construction projects will primarily consist of general building type projects (new construction, renovations, alterations, demolition, repair work, and any necessary design) including: waterfront, pier, quay, industrial, airfield, aircraft hangar, infrastructure, administrative, training, retail, food service, dormitory, community support facilities and both vertical and horizontal construction for Department of Defense activities in the Bahrain and UAE areas managed by NAVFAC EURAFCENT. Vertical Construction is defined as construction that creates vertical elements such as a building, a tower, or an elevated tank. Horizontal Construction is defined as construction that is primarily of a horizontal nature, such as pavements, pipelines, earthwork, sidewalks, underground tanks, and buried conduit. Work may be required in other areas if deemed necessary and approved by the NAVFAC EURAFCENT Chief of Contracts.

Work will be needed in three distinct geographic areas: (1) Manama, (Northern) Bahrain - includes NSA Bahrain, NSA II (Waterfront), Bahrain International Airport (AV Unit), Juffair Compound; (2) Southern Bahrain – includes Isa Air Base, Bahraini Defense Force (BDF) Main; and (3) UAE – includes Jebel Ali, Al Dhafra Air Base, Fujairah, Abu Dhabi. Work may be required in other areas if deemed necessary and approved by the NAVFAC EURAFCENT Chief of Contracts.

All task orders issued under the MACC will be awarded in U.S. Dollars.

The contract constitutes and defines the entire agreement between the contractor and the Government. No documentation shall be omitted which in any way bears upon the terms of that agreement. Acceptance of the proposal documents in making the contract award shall not be construed as a waiver of any RFP requirements.

TASK ORDER ISSUANCE PROCEDURES

If multiple contracts result from this procurement, procedures for issuing task orders are stated as follows:

- (e) Evaluation methods for MACC task orders will be delineated in the respective task order Request for Proposals (RFPs). Task order evaluation methods may include price, Low Price Technically Acceptable (LPTA), or Tradeoff.

- (g) Contract awardees are required to submit a proposal for all Task Order Requests for Proposal (RFP) received from the Government. However, in the event a MACC awardee is unable to submit a proposal on a particular RFP, the contractor is required to notify the Contracting Officer in writing within five (5) working days from receipt of the RFP.
