

THIS IS A REQUEST FOR INFORMATION (RFI), it does not constitute a Request for Proposal (RFP) or a promise to issue an RFP in the future. This RFI is developed for the express purpose of surveying interested sources on applicable supplies/services for medical training equipment which will include the procurement of Medical Materials, kitting, management, and delivery of medical training equipment in support of training requirements. Interested sources are invited to provide their approach to meet the requirements for the Medical Services Support (MS3) as described below.

This RFI does not commit the Government to contract for any supplies or services whatsoever. Responders are advised that the U.S. Government will not pay for any information or administrative costs incurred in response to this RFI; all costs associated with responding to this RFI will be solely at the interested parties' expense. Not responding to this RFI does not preclude participation in any future RFP, if any is issued.

North American Industry Classification System Code (NAICS): 488991, primarily engaged in packing, crating, and otherwise preparing goods for transportation. Product Service Code (PSC): 6910

Background:

The U.S. Army Medical Center of Excellence (MCOE), is contemplating a Multiple Award Indefinite Delivery/Indefinite Quantity (ID/IQ) type contract for medical simulation training equipment services in support of training requirements. This contract will include the procurement of medical equipment and consumables, prepare kits as needed for training systems and deliver them to single / multiple locations CONUS and OCONUS to conduct medical training. The medical training equipment services contract will give the Army and our customers a broader performance based service scope and increased efficiencies. This is a re-procurement effort for MCOE estimated between \$20M - \$60M. There is current contract in place name MS3, U.S Army PEO STRI.

Scope:

The U.S. Army MCOE ID/IQ will provide a broad range of medical training equipment services in support of training requirements. The contract's primary focus will be providing services to procure, kit and deliver Medical training equipment to conduct medical training. The following tasks and services are contemplated to be the major part of the contract's scope:

1. Procurement of medical supplies and equipment for training.
2. Procurement of consumables for medical training.
3. Receive and inspect all the procured equipment/consumables.
4. Maintain inventory as needed.
5. Provide monthly reports, at a minimum they will include; all equipment/consumables received, kits prepared, and deliveries.
6. Prepare Kits as required.
7. Ship the kits to the specified location in the DO/TO to CONUS and OCONUS Military Installations sites.

The intent of this effort is to target an efficient and effective acquisition process that provides quality services. Delivery Orders/Task Orders (DO/TO) will be awarded in accordance with FAR 16.505 - Ordering.

The period of performance for the ID/IQ contract is currently planned for 5 years.

To Interested Sources:

The Government is interested in receiving your insight as well as your innovative ideas to provide quality services at a reasonable cost for the tasks included in this RFI. Some questions the Government may have:

1. Potential challenges to distribution chain for just-in-time kitting assembly
2. Potential challenges to kitting of supplies from multiple manufacturers or distributors for multiple training events
3. Internal component ordering system as an indicator of performance risk Management of delivery locations
4. Physical capacity requirements for kit assembly
5. Recommendations for turnaround times to provide kits to field after issuing a DO/TO
6. Challenges associated with the process and methodologies used for the management, acquisition and kitting of the equipment/supplies
7. Risks related to the tools utilized for the scheduling of receiving, kitting and delivery
8. Risks associated with delivering kits with 100% fill rate in a short time notice
9. Management of the quality of the kits delivered
10. Challenges associated with providing reports on a regular bases

Responses are limited to 15 pages (double sided will be counted as two), single-spaced, minimum font is 12 point, Times New Roman on .pdf format. The Government will not review any pages beyond the 15-page limit. Company information should include:

- a) Your company name, address, POC, email addresses, phone and Fax numbers, Cage Code and the company's web page (if applicable);
- b) Company capabilities and experience relative to the services and competencies (skill sets) identified above;

RFI responses are due by 1300 hours on 3 Nov 2020 to all the POCs listed below. Any questions in response to this RFI may be directed to the POCs listed below:
