

Brand Name Justification (Simplified Acquisition)

Section A: General Contract Information		
Contracting Activity: 1 SOCONS	Purchase Request/Identification Number: F2FF047201AW01	
Project/Program Name: Intrusion Detection System Upgrade	[REDACTED]	
Section B: Description of the Supplies/Services Required		
The contractor will be required to provide and install three (3) new alarm prox reader panels for replacement of current panels at three (3) locations within the alarmed facility. The contractor shall provide and install two (2) Balanced Magnetic Switch (BMS) and two (2) motion sensors. Additionally, the contractor shall provide and install two (2) surveillance cameras and two (2) closed circuit TV monitors.		
Section C: Justification for Soliciting for a Particular Brand Name Item		
Advantor and Vindicator are the only two (2) authorized Automated Entry Control Systems (AECS). Please see attached Security Forces Center Commander's Non-Nuclear Intrusion Detection System (IDS) Equipment Approval Letter, dated 9 Jun 2016.		
The Advantor system cannot be configured to connect to the Hurlburt Field alarm system and generate alarm activations. Therefore, only the Vindicator products and system can meet the requirements of the resulting contract.		
Section D: Efforts to Obtain Competition		
Vindicator is made by Honeywell. Honeywell has a GSA contract and several approved installers. Competition will be obtained, limited to the specific vindicator equipment and certified installers.		
Section E: Steps to Preclude Future Specific Brand Name Requirements		
If this was a standalone system and not connected to BDOC monitoring, the requirement would not be limited to Honeywell Vindicator brand. Future requirements will consider approved products and will only be limited if connecting to the Hurlburt Field monitoring system.		
Section F: Contracting Officer's Determination		
I have determined, in accordance with FAR 13.106-1(b)(1) (SAP), that the circumstances of this contract action deem only a brand name product is reasonably available.
