(a) Warranties: The Contractor warrants that—

(1) The unit prices set forth in the Schedule do not include allowances for any portion of the contingency covered by this contract text; and

(b) Definitions: As used throughout this contract text, the term--

(1) Base price means—

(i) The unit price offered for an item and included in the contract award schedule; or

(ii) During any subsequent program year, either the effective contract price as of the start of the subsequent program year, or the price agreed upon as of the start of the subsequent program year.

(2) Base reference price means the reference price for an item as published on May 31, 2019. In the event one or more applicable reference prices are not (or were not) published on the date shown, then the term base reference price means the reference price for an item as published on the date nearest in time prior to the date shown.

(3) Reference price means that published reference price or combination of published reference prices for price adjustment of individual items by product, market area, and publication as specified in (f) below.

(4) Date of delivery means—

(i) For tanker or barge deliveries.

(A) Free on board (f.o.b.) origin: The date and time vessel commences loading.

(B) F.o.b. destination: The date and time vessel commences discharging.

(ii) For all other types of deliveries: The date product is received on a truck-by-truck basis.

(5) Published means issued in either printed or electronic format by the service designated to be employed as an escalator, unless otherwise specifically stated. In the event of a conflict between the price set forth in the print version and those set forth in the electronic version for the same date, the electronic version shall prevail unless otherwise specified in (c) below.

(c) Adjustments: Contract price adjustments shall be provided via notification through contract modifications and/or posting to the web page under the heading Vendor Resources and then Product Price Adjustments to reflect any price change pursuant to this contract text.

(1) Calculations: The prices payable hereunder shall be determined by adjusting the award price by the same number of cents, or fraction thereof, that the daily reference price increases or decreases, per like unit of measure. All arithmetical calculations, including the final adjusted unit price, shall be carried to six decimal places.

Oil price information service (OPIS): For all items employing OPIS, the reference price in effect on the date of delivery shall be the end of day OPIS rack average effective (6:00 p.m. timestamp) that day. In the event there is no price published for date of delivery, then it shall be the item's reference price that was last in effect.

Other publications: Except for items employing OPIS, the reference price in effect on the date of delivery shall be that item's preselected reference price that is in effect the date of delivery. In the event there is no price published for date of delivery, then it shall be the item's reference price that was last in effect.

(ii) The Contracting Officer determines that the reference price consistently and substantially failed to reflect market conditions—

The parties shall mutually agree upon an appropriate and comparable substitute for determining the price adjustments hereunder. The contract shall be modified to reflect such substitute effective on the date the reference price was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter shall be resolved in accordance with paragraph (d), Disputes, of the Contract Terms and Conditions - Commercial Items clause of this contract.

(3) Failure to deliver: Notwithstanding any other wording of this contract text, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the Contract Terms And Conditions - Commercial Items clause of this contract in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(4) Upward ceiling on economic price adjustment: The Contractor agrees that the total increase in any contract unit price pursuant to these economic price adjustment texts shall not exceed 575 percent (%) of the of the base price in any applicable program year, except as provided below.

If at any time the Contractor has reason to believe that within the near future a price adjustment under the wording of this contract text will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

If an actual increase in the reference price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(d) Examination of records: The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the wording of this contract text.

Supplies delivered under this contract shall conform to all Federal, State, and local environmental requirements applicable to the geographic location of the receiving activity on the date of delivery. This includes delivery of fuel and documentation in a manner consistent with any existing or after-imposed Title V (Clean Air Act) Permits. The list of such requirements contained in this contract is not intended to be a complete list, and the Contractor shall be responsible for determining the existence of all such requirements. Selected regional environmental requirements are highlighted. In the event that a Federal, State, or local environmental requirement is more stringent than a fuel specification contained in this contract, the Contractor shall deliver product that complies with the more stringent fuel specification. Product that fails to meet the more stringent fuel specification will be considered to be a nonconforming supply. Product(s) to be supplied shall fully meet the requirements of the applicable specification(s) as cited below. In the event that compliance with the more stringent fuel specification causes the contractor to incur additional costs, the contractor may request an equitable adjustment.

GASOLINE Product shall conform to the latest revision of ASTM D4814, as modified by the Environmental Protection Agency (EPA) requirements detailed in 40 CFR Part 80 - "Regulation of Fuels and Fuel Additives; Subpart D Reformulated Gasoline". In part, these regulations mandate that the Phase II complex model reformulated gasoline must meet three emissions performance requirements when compared to the baseline gasoline marketed by a refiner in 1990: a 27 percent reduction in emissions of volatile organic compounds (VOCs), a 22 percent reduction in emissions of toxic pollutants, and a 7 percent reduction in emissions of oxides of nitrogen (NOx). Further, Phase II complex model reformulated gasoline must meet two compositional requirements: 1.3 volume percent maximum benzene and no heavy metals (lead and manganese are examples of such metals).

The latest revision of specification ASTM D 4814 applies with the following specific requirements:

(1) OCTANE REQUIREMENTS.

- (i) Reformulated gasoline shall meet the minimum AKI of 87.
- (ii) Reductions for altitude and seasonal variations are allowed for all AKI values in accordance with figures X1.2 and X1.3 of ASTM D 4814.
- (iii) For regular unleaded gasohol, in addition to an AKI of 87 minimum, the MON must not be less than 82.

(2) OXYGENATE REQUIREMENTS.

- (i) In order to achieve minimum/maximum oxygen content limits specified per Federal, State, and local environmental requirements, suppliers shall only include oxygenates that are permitted by environmental regulations applicable to the time and place of delivery.
- (ii) Blending of permissible oxygenate into reformulated gasoline shall be accomplished by mechanical mixing or agitation in a tank, or by in-line blending, prior to loading the product into transport equipment, and the resultant product must meet contract requirements.

SECTION D - PACKAGING AND MARKING
 NOT APPLICABLE

SECTION E - INSPECTION AND ACCEPTANCE

FAR 52.246-2 INSPECTION OF SUPPLIES -- FIXED-PRICE (AUG 1996)

(a) *Definition.* “Supplies,” as used in this clause, includes but is not limited to raw materials, components, intermediate assemblies, end products, and lots of supplies.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering supplies under this contract and shall tender to the Government for acceptance only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the Government during contract performance and for as long afterwards as the contract requires. The Government may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(c) The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. The Government shall perform inspections and tests in a manner that will not unduly delay the work. The Government assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(d) If the Government performs inspection or test on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at other than the Contractor's or subcontractor's premises; provided, that in case of rejection, the Government shall not be liable for any reduction in the value of inspection or test samples.

(e)

(1) When supplies are not ready at the time specified by the Contractor for inspection or test, the Contracting Officer may charge to the Contractor the additional cost of inspection or test.

(2) The Contracting Officer may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.

(f) The Government has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with contract requirements. The Government may reject nonconforming supplies with or without disposition instructions.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

(h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, the Government may either

(1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor
or

(2) terminate the contract for default.

Unless the Contractor corrects or replaces the supplies within the delivery schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.

(i)

(1) If this contract provides for the performance of Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time --

(i) When Contractor inspection or tests will be performed in accordance with the terms and conditions of the contract; and

(ii) When the supplies will be ready for Government inspection.

(2) The Government's request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if the Government representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

(j) The Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the contract. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability on the Government, for nonconforming supplies.

(k) Inspections and tests by the Government do not relieve the Contractor of responsibility for defects or other failures to meet contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the contract.

(l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, the Government, in addition to any other rights and remedies provided by law, or under other provisions of this contract, shall have the right to require the Contractor

(1) at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at the Contracting Officer's election, and in accordance with a reasonable delivery schedule as may be agreed upon between the Contractor and the Contracting Officer; provided, that the Contracting Officer may require a reduction in contract price if the Contractor fails to meet such delivery schedule, or

(2) within a reasonable time after receipt by the Contractor of notice of defects or nonconformance, to repay such portion of the contract as is equitable under the circumstances if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point when that point is not the Contractor's plant. If the Contractor fails to perform or act as required in (1) or (2) above and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Government shall have the right by contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby.

DFARS 252.246-7000 MATERIAL INSPECTION AND RECEIVING REPORT (MAR 2008)

(a) At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a material inspection and receiving report in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense FAR Supplement.

(b) Contractor submission of the material inspection and receiving information required by Appendix F of the Defense FAR Supplement by using the Wide Area WorkFlow (WAWF) electronic form (see paragraph (b) of the clause at [252.232-7003](#)) fulfills the requirement for a material inspection and receiving report (DD Form 250). Two copies of the receiving report (paper copies of either the DD Form 250 or the WAWF report) shall be distributed with the shipment, in accordance with Appendix F, Part 4, F-401, Table 1, of the Defense FAR Supplement.

However, the Government reserves the right to perform an inspection at any point prior to acceptance.

(c) When the Contractor is informed by the responsible Inspection Office that government inspection is deemed necessary, the Contractor shall ensure that the Inspection Office is provided with sufficient information and advance notification to facilitate such inspection. When government inspection is necessary at a contractor or

subcontractor (commercial or government) facility, the Contractor shall notify the Inspection Office of the necessary requirements to access those facilities and shall help facilitate such access. After initial notification, the Contractor shall keep the Inspection Office informed of any changes that may affect that inspection.

E35 NONCONFORMING SUPPLIES AND SERVICES (DLA ENERGY DEC 2011)

(a) DEFINITION: As used in this contract provision:

Deviation is defined as a written authorization granted after contract award and prior to manufacture of an item, to depart from a particular performance or design requirement of a contract, specification, or referenced document, for a specific number of units or specific period of time, normally the duration of the contract.

Extraordinary situation means the matter cannot await resolution until the next DLA Energy business day (0800 to 1630 hours EST, Monday through Friday, Federal Holidays excluded).

Waiver is defined as a written authorization granted after contract award to accept a configuration item or other designated item which, during production or after having been submitted for inspection, is found to depart from specified requirements, but nevertheless is considered suitable for use “as is” or after repair by an approved method. Approval is on a case-by-case basis and is normally for a set period of time.

(b) The Government may, at its discretion, accept nonconforming supplies or services. In such cases, the Contractor must obtain a deviation or waiver from the Contracting Officer prior to acceptance.

(c) The following procedures shall be used to request a deviation or waiver.

(1) Requests for deviations and waivers shall be submitted by the Contractor to the Contracting Officer with a copy to the appropriate Inspection Office referenced in the LIST OF INSPECTION OFFICES FOR DLA ENERGY CONTRACTS or QUALITY REPRESENTATIVE contract provision of this contract. Each request shall provide the following information: Contractor name; name and contact information of the contractor's authorized negotiator; contract number; contract line item number and product nomenclature, clause or contract provision number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and an agreement to pay an equitable price reduction, estimated and proposed by DLA Energy, over and above the administrative fee, contingent on the impact of the specific circumstances on DLA Energy relative to approval of the deviation or waiver.

(2) In extraordinary situations, the Contractor may initially submit a verbal request for a waiver, but not a deviation, to the Contracting Officer. Written requests shall be submitted to the Contracting Officer by the next DLA Energy business day (0800 to 1630 hours EST, Monday through Friday, Federal Holidays excluded). If the Contracting Officer cannot be reached, the Duty Officer shall be contacted to provide the necessary information to the proper individuals as soon as possible. The Duty Officer's telephone number is (800) 286-7633 or (703) 767-8420.

(3) If a deviation or waiver is granted, the contract will be modified to accept the nonconforming supplies or services and to require the Contractor to provide an equitable price reduction or other adequate consideration commensurate with the deviation or waiver being granted. If the situation warrants, a deviation or waiver may be granted without prior agreement on price reduction or other consideration, subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such an agreement, in addition to a brief description of the terms of the deviation or waiver, shall be documented on the shipping document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of the Disputes paragraph of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS contract provision of this contract.

(4) If a deviation or waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$500, which covers administrative costs, plus any additional cost of Government reinspection or retest, if necessary.

5) If a deviation or waiver is granted modifying this contract, but the supplies accepted are subsequently determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the deviation or waiver. If, however, this consideration exceeds \$1000, a second contract modification shall be issued reducing the Contractor's obligation to \$1000 (the administrative cost of issuing the two required modifications), plus, if appropriate, any cost of Government reinspection or retest performed as a result of the deviation or waiver being granted.

E37 SOURCE RESTRICTION AND SOURCE INSPECTION (PC&S) (DLA ENERGY DEC 2011)

(a) SOURCE RESTRICTION.

(1) If the Contractor delivers any product that is determined to be off-specification, the Contracting Officer (CO) shall thereafter have the right, upon giving written notice, to require the Contractor to designate a single source of supply for each destination set forth in the contract. Upon receiving such notice, the Contractor shall have 10 days to respond, in writing, after which time the source restriction will become effective.

(2) In addition to the name of a single source of supply, the Contractor must provide the address of the terminal or loading point to be used in drawing the requirements for each item in the contract.

(3) The Contractor may change suppliers only after requesting and receiving the express written approval of the CO.

(b) SOURCE INSPECTION.

(1) If serious quality problems arise or if a quality problem recurs, for which the Contractor was supposed to have taken corrective action, the CO shall, in addition to source restriction, have the right to change the inspection point from destination to origin (source) by advising the Contractor in writing. Source inspection will become effective 10 days after written notice has been received by the Contractor.

(2) At the time the change becomes effective—

(i) All appropriate contract provisions relating to origin inspection shall be incorporated into the contract for the item(s) involved;

(ii) Source restriction, if not already in force, will be invoked for all items involved, in accordance with (a) above; and

(iii) The cognizant DLA Energy field office, upon receiving written notification by the CO, will become the office responsible for inspection at the origin loading or filling point for providing necessary field assistance.

(c) Failure to provide the information requested or to take prompt corrective action may result in the item(s) and/or contract being terminated for default.

SECTION F - DELIVERIES OR PERFORMANCE

FAR 52.211-16 VARIATION IN QUANTITY (APR 1984)

(a) A variation in the quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in paragraph (b) of this clause.

(b) The permissible variation shall be limited to:

10 Percent increase

10 Percent decrease

This increase or decrease shall apply to each quantity specified in the delivery schedule.

FAR 52.247-34 F.O.B. – DESTINATION (NOV 1991)

(a) The term “f.o.b. destination,” as used in this clause, means --

(1) Free of expense to the Government, on board the carrier’s conveyance, at a specified delivery point where the consignee’s facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and

(2) Supplies shall be delivered to the destination consignee’s wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the Contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or “constructive placement” as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (including “piggyback”) is used, supplies shall be delivered to truck tailgate at the unloading platform of the consignee, except when the supplies delivered meet the requirements of Item 568 of the National Motor Freight Classification for “heavy or bulky freight.” When supplies meeting the requirements of the referenced Item 568 are delivered, unloading (including movement to the tailgate) shall be performed by the consignee, with assistance from the truck driver, if requested. If the contractor uses rail carrier or freight forwarded for less than carload shipments, the contractor shall ensure that the carrier will furnish tailgate delivery, when required, if transfer to truck is required to complete delivery to consignee.

(b) The Contractor shall --

(1)

(i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

(3) Deliver the shipment in good order and condition to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before receipt of the shipment by the consignee at the delivery point specified in the contract;

(5) Furnish a delivery schedule and designate the mode of delivering carrier; and

(6) Pay and bear all charges to the specified point of delivery.

F1.01-1 DELIVERY CONDITIONS FOR TRANSPORT TRUCKS, TRUCKS AND TRAILERS, AND TANK WAGONS (DLA ENERGY JAN 2012)

IMPORTANT NOTE on **EPA TESTING OF UNDERGROUND TANKS**. If the "volumetric" method is used for annual EPA testing of underground tanks, the "topping off" of tanks for this test is outside the scope of DLA Energy requirements contracts.

(a) **F.O.B. ORIGIN**. On items calling for delivery at Contractor's refinery, terminal, or bulk plant f.o.b. transport truck, truck and trailer, or tank wagon—

(1) Supplies ordered hereunder shall be delivered, at Contractor's expense, into equipment specified in the Schedule.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(b) **F.O.B. DESTINATION**. On items calling for delivery f.o.b. destination by means of transport truck, truck and trailer, or tank wagon--

(1) The Contractor shall not be required to deliver by transport truck or truck and trailer a quantity less than a full load nor into more than one storage tank, with the following exceptions:

(i) An order placed under an item of this contract calling for delivery by transport truck of motor gasoline, fuel oil, diesel fuel, or kerosene, or, if this procurement is for Central America only, jet fuel, may require delivery of a quantity as low as 5,200 gallons whenever the activity is restricted either by a tank capacity or by a directive from receiving a larger quantity; and

(ii) Where the Schedule provides for multiple drop deliveries, the Contractor may be required to deliver into more than one storage tank. Where truck and trailer is the method of delivery specified, the Contractor may, at its option, make delivery by transport truck. In the case of deliveries in Alaska, where truck and trailer or transport truck is the method of delivery specified, the Contractor may, at its option, make delivery by tank wagon.

(2) Unless otherwise specified in the Schedule, all deliveries shall be made on the day specified in the delivery order unless otherwise authorized by the receiving activity during normal working hours of such activity, provided that the Contractor shall have received the order at least 48 hours prior to the day so specified.

(3) The Contractor shall not be required to deliver by tank wagon a quantity of less than 575 liters (or 150 gallons) but, at the Government's option, may be required to deliver into more than one storage tank.

(4) When delivery is made by tank wagon, such wagon shall be equipped with pump, meter, and a minimum of 100 feet (30 meters) of hose. Where delivery is made by transport truck or truck and trailer, such delivery equipment shall be equipped with a minimum of 15 feet of hose.

(5) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility, the Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

(6) Unless otherwise provided in the Schedule, free time for unloading trucks, transport trucks, or trucks and trailers shall be unlimited.

(7) When delivery is made by tank wagon, transport truck, or truck and trailer to a Government facility—

(i) The Contractor shall provide properly maintained delivery equipment and properly trained delivery personnel to reasonably assure that delivery can be made without damage to vegetation and asphalt pavement adjacent to storage facilities being filled. The Contractor's delivery personnel who have not exercised reasonable care and delivery equipment that is poorly maintained may be refused entrance to the installation by the installation Commander.

(ii) The Contractor shall present delivery equipment and product in such condition at destination so as to permit complete off-loading within the prescribed free time.

F1.09-2 DETERMINATION OF INVOICE QUANTITY (PC&S) (DLA ENERGY JAN 2012)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **F.O.B. DESTINATION.**

(i) **DELIVERIES BY TANKER OR BARGE.**

(A) On items requiring delivery on an f.o.b. destination basis by tanker or barge, the quantity shall be determined on the basis of--

(1) Calibrated meters on the receiving tank system; or

(2) Receiving tank measurements.

(B) All quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).

(ii) **DELIVERIES BY RAIL TANK CAR.**

(A) On items requiring delivery on an f.o.b. destination basis by rail tank car, the quantity of supplies furnished under this contract shall be determined (at the Government's option) on the basis of--

(1) Calibrated meter on the receiving tank system;

(2) Weigh, using calibrated scales at the receiving location; or

(3) Receiving tank measurements.

(B) All quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).

(iii) **DELIVERIES BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(A) If the narrative requires a tank wagon (which is always equipped with a meter), that meter shall be used to determine quantity at time of delivery. The quantity shall be read directly from the meter. On items requiring delivery on a f.o.b. destination basis by tank truck or truck and trailer, quantity shall be determined in the following order of preference:

(1) Calibrated meter on the receiving tank system

(2) Calibrated meter on the conveyance

(3) Weight using calibrated scales at the receiving location.

(4) **Loading rack meter ticket.** The ticket must be generated at the time of loading and be based on a calibrated loading rack meter. The loading rack ticket shall be mechanically annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

(5) Receipt tank measurements (as identified in the Schedule).

(B) All quantities, other than delivery by tank wagon, shall be converted, either mechanically or manually, to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).

(C) If a loading rack meter ticket is used to determine quantity for a biodiesel blend, the quantity shall be converted to net (volume corrected) gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).

The Contractor shall prepare separate loading rack meter tickets for the diesel portion and for the biodiesel blend stock B100 (the industry designation for pure biodiesel), hereinafter referred to as the B100 portion of the load. The B100 loading rack meter shall be recorded at gross (ambient) temperature when the loading meter is not capable of providing a net (volume corrected) quantity. The total shall be

the sum of the net diesel and gross B100. When the B100 loading rack meters are capable of providing a net (volume corrected) quantity, the total receipt quantity shall be the sum of the net diesel and the net B100.

(2) **F.O.B. ORIGIN.** All quantities shall be converted to net gallons at 60 degrees Fahrenheit (or liters at 15 degrees Celsius).

(i) **DELIVERIES INTO TANKER OR BARGE.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis into a tanker or barge, the quantity shall be determined (at the Contractor's option) on the basis of--

(A) Calibrated meter; or

(B) Shipping/shore tank measurement.

(ii) **DELIVERIES INTO RAIL TANK CAR.** On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

(A) Certified loading rack meter;

(B) Weight, using calibrated scales; or

(C) Certified capacity tables for the rail tank car.

(iii) **DELIVERIES BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

(1) Calibrated loading rack meter;

(2) Weight, using calibrated scales; or

(3) Certified capacity tables of the conveyance loaded.

(B) **WATER BOTTOMS.**

(1) Every delivery must be free of all water bottoms prior to discharge; and

(2) The Contractor is responsible for their removal and disposal.

(b) **MEASUREMENT RESTRICTIONS.** All methods of measurements described in this contract provision are subject to government safety and environmental restrictions, foreign or domestic. Such restrictions may prohibit, or render ineffective, a particular method in some cases.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS).

Outside the United States, other technically equivalent national or international standards may be used. **Certified capacity tables** shall mean capacity tables prepared by an independent inspector or any independent survey or to the aforementioned measurement and calibration standards. In addition, the following specific standards will be used as applicable:

(1) **API MPMS Chapter 11.1, Temperature and Pressure Volume Correction Factors for Generalized Crude Oils, Refined Products, and Lubricating Oils (this chapter is an adjunct to ASTM D 1250, IP 200 and ISO 91-1).** Either the 2004 or 1980 version of the standard may be used. Either the printed tables (an adjunct to the 1980 version) or the computer subroutine version of the standard may be used. In case of disputes, the computer subroutine and the 2004 version of the standard will be the referee method.

(i) For crude oils, JP4, and Jet B, use Volume I, Tables 5A and 6A; Volume VII, Tables 53A and 54A; or Volume IV, Tables 23A and 24A.

(ii) For lubricating oils, use Volume XIII, Tables 5D and 6D; Volume XIV, Tables 53D and 54D; or Tables 23D and 24D (2004 version).

(iii) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B; Volume VII, Tables 53B and 54B; or Volume V, Tables 23B and 24B.

(iv) For chemicals/additives, use Volume III, Table 6C (or Volume IX, Table 54C) or volume correct in accordance with the product specification.

(v) Volume XII, Table 52, shall be used to convert cubic meters at 15 degrees Celsius to barrels at 60 degrees Fahrenheit. Convert liters at 15 degrees Celsius to cubic meters at 15 degrees Celsius by dividing by 1,000. Convert gallons at 60 degrees Fahrenheit to barrels at 60 degrees Fahrenheit by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be used.

(vi) As an option to (c) (1) (v), liters may be converted to gallons using Table F1.09A (see below). If this option is used, it must be agreed upon by both parties and shall remain in effect for the duration of the contract. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(vii) If the original measurement is by weight and quantity is required by U.S. gallons, then--

(A) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60 degrees Fahrenheit.

(B) Volume XII of the adjunct to ASTM D 1250, Table 58, shall be used to convert metric tons to U.S. gallons at 60 degrees Fahrenheit.

(2) **API MPMS Chapter 4, Proving Systems.** All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent. A meter calibration log/calibration certificates shall be maintained which, as a minimum, contains--

- (i) Number/name of each meter;
- (ii) Calibration frequency;
- (iii) Date of the last calibration;
- (iv) Due date for next calibration;
- (v) Name and signature of the person performing the calibration;
- (vi) Traceability to master meter/prover used for calibration; and
- (vii) Calibration report number.

Each meter shall be marked with the date of the last calibration and due date for the next calibration. All calibration meter recordings and logs/certificates shall be kept on file and made available upon request. All calibration records (including logs or certificates) shall be retained on file for a period of three years.

(1) **API MPMS Chapter 12, Calculation of Petroleum Quantities.** All calculations of net quantities shall be made in accordance with this chapter. Outside the U.S., use of tank shell correction factor is not required unless its use is a customary practice for custody transfer.

0.965 – 1.074	3.78405	0.264267

(d) **SHIPPING DOCUMENTATION.** The following information shall be mechanically annotated on the contractor's shipping document (such as a truck's metered ticket) when the document is used to determine quantity under this contract: gross and net quantity (gallons or liters, as required), observed and corrected API

gravity/density, and the temperature (Fahrenheit or Celsius) at which the product was measured. The following exceptions apply:

(1) Where government documents are the sole basis for payment, such as DD Form 250/250-1s, the information is not required.

(2) Where conveyances with temperature-compensating meters are used, the shipping document shall only be annotated with the corrected API gravity/density, the net quantity, and a statement that a temperature-compensating meter was used to determine net quantity.

(3) Where volume correction for temperature is not required in accordance with Paragraph (a) (1) (iii) (B) above, the shipping document shall only be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(e) **RIGHT TO REPRESENTATIVE.** For f.o.b. origin deliveries, the Government has the right to have a representative present to witness the measurement of quantity. For f.o.b. destination deliveries, the Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(f) **DISCREPANCIES. For f.o.b. destination deliveries utilizing volume corrected loading rack meter tickets to determine quantity:**

(1) The quantities shown on the shipping document (volume corrected loading rack meter tickets) will be accepted as the quantity received, provided that any differences between that quantity and the Government's receipt tank measurement at destination does not exceed one half of one percent (0.5%) of the amount on the shipping document. If the difference is greater than one half of one percent (0.5%), the quantity determined by the Government using receipt tank measurements at destination will be used for acceptance and payment provided receipt tank measurements are identified in the Schedule as an approved quantity determination method for that line item. Quantity measurements using the methods specified in section (a) (1) (iii) (A) (1-3) above will be used for acceptance and payment regardless of any discrepancy with a loading rack meter ticket.

(2) If, the Government's receipt tank quantity measurement varies by more than one half of one percent (0.5%) from the Contractor's quantity measurement, the parties may conduct a joint investigation) of the variation in order to identify the cause of the discrepancy. Any quantity discrepancy that cannot be settled by the parties and results in a dispute shall be resolved under the Disputes provisions of the contract.

F1.11 DLA INTERNET BID BOARD SYSTEM (DIBBS) (DLA ENERGY APR 2014) THIS PROVISION ONLY APPLIES TO DLA FUNDED LINE ITEMS.

(a) Contractor Registration. Contractors must register in DIBBS to obtain a login account at <https://www.dibbs.bsm.dla.mil>. The login account will allow a contractor to register a primary and alternate email address for notifications. Contractors are strongly encouraged to establish a group email address for the primary email address for the contractor's authorized point of contacts. The registered email addresses will be the only email used by the government to make notifications.

(b) All contractors must have an active System for Award Management (SAM) account, <http://www.sam.gov> in order to register for DIBBS.

(c) The Contractor shall use DIBBS to receive orders. DLA Energy will not be using DIBBS receipt of quotes capability. All quotations, proposals, bids shall be submitted in accordance with the terms and conditions of the solicitation.

(d) PREPARATION AND TRANSMISSION OF ORDERS AND CALLS

(1) The Government may issue an order for a specific delivery or a series of deliveries (e.g., several deliveries during a week). The Government may also elect to issue an order covering a longer period (including monthly orders) and make periodic calls against these orders designating specific delivery dates, times, and quantities.

(2) Only a DLA Energy warranted Contracting Officer can issue an order, either orally or in writing, against a contract. An oral order issued by the warranted Contracting Officer shall provide the required advance notice to the Contractor and the following information: **Interim order number**; contract number; item number; ceiling price; quantity; delivery location; and the required delivery and/ or service date.

(i) For all product orders, the Contractor will receive an electronically signed written order via DIBBS, within 24 hours or one business day after the warranted Contracting Officer issues an oral order.

- (ii) For all service orders, the Contractor will receive an electronically signed written order via DIBBS, within five business days after issuing the oral order.
 - (iii) Interim order number is subject to change once the electronically signed written order is received by the contractor. The order number on the written order will take precedence over the interim order number, if different.
 - (iv) Regardless of the unit price cited on the written order, the office designated to make payments on the written order will pay the applicable unit price in effect under the terms and conditions of the contract.
 - (v) Once the order has been issued, an email will be sent to the Contractor to provide notice that the order is available on the contract-specific web page. The order will also be submitted to the payment office.
- (3) Calls against previously issued orders must be confirmed in writing within 24 hours or one business day via email message. The email confirmation will reference the previously issued order number and item number and designate specific delivery location, dates, and quantity to be delivered against that order.
- (4) The Contractor's non-receipt of a written or electronic confirmation of an oral order or oral call against a written or electronic order does not relieve the Contractor from its obligation to perform in accordance with the oral order or oral call against a written or electronic order. The Contractor should contact the DLA Energy Contracting Officer if problems are experienced with receipt of the electronic or written confirmation.

F1.26 DELIVERY CONDITIONS FOR ALL ITEMS INCLUDING AUTOMATIC FILL-UP (DLA ENERGY JAN 2004)

- (a) Supplies ordered hereunder shall be delivered, all transportation charges paid, to the destination specified in the Schedule by means of the transportation equipment specified in the Schedule. F3 TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES (PC&S) (DLA ENERGY AUG 2005)

(a) Upon arrival of Contractor's transport truck or truck and trailer, the receiving activity shall promptly designate the tanks into which the load is to be discharged. Free time will commence when the discharge hose is connected to the receiving line at the delivery point and will end when discharge is completed. The Contractor shall be paid for detention beyond free time for delays caused by the Government. A minimum of one hour free time is required.

(1) Free time for unloading a transport truck or truck and trailer (includes one hour minimum plus any additional time): _____.

(2) Rate for detention beyond free time: _____.

_____.

The above will not be considered in the evaluation of offers for award except that a free time of less than one hour may render an offer unacceptable. Notwithstanding the above, the Government is entitled to at least as much free time as is allowed by the common carrier or that the Contractor normally allows its regular commercial customers, whichever is greater. Free time only applies to single-drop deliveries (it is not applicable to multiple-drop tank truck/truck and trailer deliveries or any tank wagon deliveries).

(b) Notwithstanding the above, the Government will not pay more in detention rates than the actual rate charged by the common carrier or the rate the Contractor normally charges its regular commercial customers, whichever is lower. Detention costs will be the sole responsibility of the activity incurring them and are only allowable on single drop deliveries (they are not allowable on multiple drop tank truck/truck and trailer deliveries or any tank wagon deliveries. Invoices for detention costs will be submitted by the Contractor directly to the activity receiving the product. These provisions are applicable to DLA-owned/capitalized as well as non-DLA-owned/noncapitalized products.

(c) UNLESS THE OFFEROR OTHERWISE INDICATES IN PARAGRAPHS (a) (1) AND (a) (2) ABOVE, FREE TIME WILL BE CONSIDERED UNLIMITED AND DETENTION COSTS WILL NOT BE CHARGEABLE.

When a solicitation provision or contract clause uses a word or term that is defined in the Federal Acquisition Regulation (FAR), the word or term has the same meaning as the definition in FAR 2.101 in effect at the time the solicitation was issued, unless—

- (a) The solicitation, or amended solicitation, provides a different definition;
- (b) The contracting parties agree to a different definition;
- (c) The part, subpart, or section of the FAR where the provision or clause is prescribed provides a different meaning; or
- (d) The word or term is defined in FAR Part 31, for use in the cost principles and procedures.

FAR 52.204-13 SYSTEM FOR AWARD MANAGEMENT MAINTENANCE (OCT 2018)

(a) *Definition.* As used in this clause--

“Electronic Funds Transfer (EFT) indicator” means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

“Registered in the System for Award Management (SAM) database” means that—

- (1) The Contractor has entered all mandatory information, including the unique entity identifier and the EFT indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM;
- (2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM;

- (3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and
- (4) The Government has marked the record “Active”.

“System for Award Management (SAM)” means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes—

- (1) Data collected from prospective Federal awardees required for the conduct of business with the Government;
- (2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and
- (3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

“Unique entity identifier” means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b) If the solicitation for this contract contained the provision 52.204-7 with its Alternate I, and the Contractor was unable to register prior to award, the Contractor shall be registered in SAM within 30 days after award or before three days prior to submission of the first invoice, whichever occurs first.

(c) The Contractor shall maintain registration in SAM during contract performance and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement. The Contractor is responsible for the currency, accuracy and completeness of the data within SAM, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in SAM after the initial registration, the Contractor is required to review and update on an annual basis, from the date of initial registration or subsequent updates, its information in SAM to ensure it is current, accurate and complete. Updating information in SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(d)

(1)

(i) If a Contractor has legally changed its business name or “doing business as” name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to—

- (A) Change the name in the SAM;
- (B) Comply with the requirements of subpart 42.12 of the FAR; and
- (C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor shall provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (d)(1)(i) of this clause, or fails to perform the agreement at paragraph (d)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of this contract.

(3) The Contractor shall ensure that the unique entity identifier is maintained with the entity designated at www.sam.gov for establishment of the unique entity identifier throughout the life of the contract. The Contractor shall communicate any change to the unique entity identifier to the Contracting Officer within 30 days after the change, so an appropriate modification can be issued to update the data on the contract.

A change in the unique entity identifier does not necessarily require a novation be accomplished.

(e) Contractors may obtain additional information on registration and annual confirmation requirements at <https://www.sam.gov>.

FAR 52.204-16 - COMMERCIAL AND GOVERNMENT ENTITY CODE REPORTING (JUL 2016)

SAM registrants located outside the United States and its outlying areas shall obtain a NCAGE code prior to registration in SAM (see paragraph (c)(3) of this provision).

(2) The DLA Commercial and Government Entity (CAGE) Branch. (3) The appropriate country codification bureau. Entities located outside the United States and its outlying areas may obtain an NCAGE code by contacting the Codification Bureau in the foreign entity’s country if that country is a member of NATO or a sponsored nation. NCAGE codes may be obtained from the NSPA at <https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx> if the foreign entity’s country is not a member of NATO or a sponsored nation. Points of contact for codification bureaus, as well as additional information on obtaining NCAGE codes, are available at <http://www.nato.int/structur/AC/135/main/links/contacts.htm>.

(e) When a CAGE Code is required for the immediate owner and/or the highest-level owner by 52.204-17 or 52.212-3(p), the Offeror shall obtain the respective CAGE Code from that entity to supply the CAGE Code to the Government.

(f) Do not delay submission of the offer pending receipt of a CAGE code.

The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights --

- (1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C.3727). (e) Definitions. The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(f) Excusable delays. The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence such as, acts of God or the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. (m) Termination for cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. (i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an “I agree” click box or other comparable mechanism (e.g., “click-wrap” or “browse-wrap” agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

FAR 52.215-8 ORDER OF PRECEDENCE – UNIFORM CONTRACT FORMAT (OCT 1997)

Any inconsistency in this solicitation or contract shall be resolved by giving precedence in the following order:

- (a) The Schedule (excluding the specifications).
- (b) Representations and other instructions.
- (c) Contract clauses.
- (d) Other documents, exhibits, and attachments.
- (e) The specifications.

FAR 52.216-21 REQUIREMENTS (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued

in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after March 31, 2021.

FAR 52.232-11 EXTRAS (APR 1984)

Except as otherwise provided in this contract, no payment for extras shall be made unless such extras and the price therefor have been authorized in writing by the Contracting Officer.

FAR 52.232-17 INTEREST (MAY 2014)

(a) Except as otherwise provided in this contract under a Price Reduction for Defective Certified Cost or Pricing Data clause or a Cost Accounting Standards clause, all amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in paragraph (e) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(b) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(c) Final Decisions. The Contracting Officer will issue a final decision as required by 33.211 if—

(1) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt in a timely manner;

(2) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or

(3) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).

(d) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(e) Amounts shall be due at the earliest of the following dates:

(1) The date fixed under this contract.

(2) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(f) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(1) The date on which the designated office receives payment from the Contractor;

(2) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(g) The interest charge made under this clause may be reduced under the procedures prescribed in 32.608-2 of the Federal Acquisition Regulation in effect on the date of this contract.

FAR 52.232-33 PAYMENT BY ELECTRONIC FUNDS TRANSFER-- SYSTEM FOR AWARD MANAGEMENT (OCT 2018)

(a) *Method of payment.*

(1) All payments by the Government under this contract, shall be made by electronic funds transfer (EFT), except as provided in paragraph (a)(2) of this clause. As used in this clause, the term “EFT” refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph (d) of this clause).

(b) *Contractor's EFT information.* The Government shall make payment to the Contractor using the EFT information contained in the System for Award Management (SAM) database. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the SAM database.

(c) *Mechanisms for EFT payment.* The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or

the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) *Suspension of payment.* If the Contractor's EFT information in the SAM database is incorrect, then the Government need not make payment to the Contractor under this contract until correct EFT information is entered into the SAM database; and any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(e) *Liability for uncompleted or erroneous transfers.*

(1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

- (i) Making a correct payment;
- (ii) Paying any prompt payment penalty due; and
- (iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

- (i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or
- (ii) If the funds remain under the control of the payment office, the Government shall not make payment, and the provisions of paragraph (d) of this clause shall apply.

(f) *EFT and prompt payment.* A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(g) *EFT and assignment of claims.* If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall register separately in the SAM database and shall be paid by EFT in accordance with the terms of this clause. Notwithstanding any other requirement of this contract, payment to an ultimate recipient other than the Contractor, or a financial institution properly recognized under an assignment of claims pursuant to Subpart 32.8, is not permitted. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(h) *Liability for change of EFT information by financial agent.* The Government is not liable for errors resulting from changes to EFT information made by the Contractor's financial agent.

(i) *Payment information.* The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address contained in the SAM database.

FAR 52.233-1 DISPUTES (MAY 2014)

(a) This contract is subject to 41 U.S.C. chapter 71, Contract Disputes.

(b) Except as provided in Chapter 71, all disputes arising under or relating to this contract shall be resolved under this clause.

(c) “Claim,” as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to this contract. However, a written demand or written assertion by the Contractor seeking the payment of money exceeding \$100,000 is not a claim under 41 U.S.C. chapter 71 until certified. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim under 41 U.S.C. chapter 71. The submission may be converted to a claim under 41 U.S.C. chapter 71, by complying with the submission and certification requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

(d)

(1) A claim by the Contractor shall be made in writing and, unless otherwise stated in this contract, submitted within 6 years after accrual of the claim to the Contracting Officer for a written decision. A claim by the Government against the Contractor shall be subject to a written decision by the Contracting Officer.

(2)

The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Upon receipt of the final decision in the protest, the Contracting Officer shall either --

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled either before or after a final decision in the protest, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if --

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to an adjustment within 30 days after the end of the period of work stoppage; provided, that if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon a proposal at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

(e) The Government's rights to terminate this contract at any time are not affected by action taken under this clause.

(f) If, as the result of the Contractor's intentional or negligent misstatement, misrepresentation, or miscertification, a protest related to this contract is sustained, and the Government pays costs, as provided in FAR 33.102(b)(2) or 33.104(h)(1), the Government may require the Contractor to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the Contractor under any contract between the Contractor and the Government.

(B) Have have not , within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks “have”, the offeror shall also see 52.209-7, if included in this solicitation); and

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(ii) The Offeror has has not , within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

SECTION M - EVALUATION FACTORS FOR AWARD

FAR 52.212-2 EVALUATION - COMMERCIAL ITEMS (OCT 2014)

- (a) The Government will award a contract resulting from this solicitation to the responsible offeror(s) whose offer(s), conforming to the Solicitation, will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: Price and Technical Capability. Proposals will be evaluated in accordance with FAR 52.212-2 Evaluation – Commercial Items, using Lowest Price Technically Acceptable source selection process. Each line item will be evaluated and awarded independently from all other line items. As stated above, the following factors shall be used to evaluate offers:

FACTOR 1: PRICE

FACTOR 2: TECHNICAL CAPABILITY

(1) PRICE

The lowest price will be determined by evaluating offers on a line item-by-line item basis. Each line item will be evaluated and awarded independently from all other line items. The six month extension period in provision I209.09 for each line item will be evaluated by multiplying the offered unit price against an estimated quantity for the six month period. Evaluation of options does not obligate the Government to exercise options.

(2) TECHNICAL CAPABILITY

The Government will evaluate an offeror's technical capability on an Acceptable/Unacceptable basis. In order to be considered for award, an offeror must meet or exceed the following technical acceptability standards:

1. **Acceptable:** An offer will be deemed technically acceptable if it meets the requirements of the Solicitation, including the requirements schedule listed above, the product specification requirements in Section C, and delivery requirements in Section F.
2. **Unacceptable:** An offer that does not meet the requirements of the Solicitation.

Responsibility: In addition to the evaluation criteria stated above, the Government must determine the responsibility of any potential contractor in accordance with FAR subpart 9.1. In making its determination, the Government may conduct pre-award surveys to assure awardees meet the FAR 9.104-1 standards for present responsibility.

- (b) **Options.** The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

M55 CONVERSION FACTORS (DLA ENERGY MAR 2007)

- (a) This provision applies to all products except lubricating oils.
- (b) The offeror should use conversion factors that reflect its product characteristics and submit prices and transportation rates in the requested units. In the event prices or transportation rates are not submitted in the requested units, the following conversion factors based on an assumed density for the product will be used by DLA Energy in the evaluation of the offer.

M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DLA ENERGY APR 1997)

(a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.

(b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--

(1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or

(2) The exception/deviation is acceptable.

(c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).

(d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.

(e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.
