INSTRUCTIONS (*Back Page*):

Instructions for items other than those that are self-explanatory, are as follows:

- (a) Item 1 (Contract ID Code). Insert the contract type identification code that appears in the title block of the contract being modified.
- (b) Item 3 (Effective date).
- (1) For a solicitation amendment, change order, or administrative change, the effective date shall be the issue date of the amendment, change order, or administrative change.
- (2) For a supplemental agreement, the effective date shall be the date agreed to by the contracting parties.
- (3) For a modification issued as an initial or confirming notice of termination for the convenience of the Government, the effective date and the modification number of the confirming notice shall be the same as the effective date and modification number of the initial notice.
- (4) For a modification converting a termination for default to a termination for the convenience of the Government, the effective date shall be the same as the effective date of the termination for default.
- (5) For a modification confirming the contracting officer's determination of the amount due in settlement of a contract termination, the effective date shall be the same as the effective date of the initial decision.
- (c) Item 6 (Issued By). Insert the name and address of the issuing office. If applicable, insert the appropriate issuing office code in the code block.
- (d) Item 8 (Name and Address of Contractor). For modifications to a contract or order, enter the contractor's name, address, and code as shown in the original contract or order, unless changed by this or a previous modification.
- (e) Items 9, (Amendment of Solicitation Number - Dated), and 10, (Modification of Contract/Order Number - Dated). Check the appropriate box and in the corresponding blanks insert the number and date of the original solicitation, contract, or order.
- (f) Item 12 (Accounting and Appropriation Data). When appropriate, indicate the impact of the modification on each affected accounting classification by inserting one of the following entries:
- (1) Accounting classification _____
Net increase \$ _____
- (2) Accounting classification _____
Net decrease \$ _____
- NOTE: If there are changes to multiple accounting classifications that cannot be placed in block 12, insert an asterisk and the words "See continuation sheet".
- (g) Item 13. Check the appropriate box to indicate the type of modification. Insert in the corresponding blank the authority under which the modification is issued. Check whether or not contractor must sign this document. (See FAR 43.103.)
- (h) Item 14 (Description of Amendment/Modification).

SECTION 4: PROJECT DETAILS

Technical Complexity of Work

(Refer to page 5 to verify the indicated technical complexity of work): ☐ High ☐ Medium ☐ Low

Do you concur with the information and project description provided by the offeror (sec. 1 – sec. 3) for the selected project submitted for the offeror’s past performance? ☐ Yes ☐ No (If no, please give a brief explanation of the discrepancy).

Explanation of any discrepancy (as needed):

Describe how the referenced project adhered to the baseline schedule. Describe any reasons for schedule deviations in the offeror’s past performance sample project(s) and what the team did in order to meet the schedule. Were there any change orders either customer driven or contractor driven and how was any impact solidified in the schedule?

Describe any reasons for deviation from the original proposed price. Identify any measures that either saved the project money or resulted in cost overruns. For instance, these metrics may be in the numbers of RFI’s adverted, change orders averted, value engineering employed, and or cost/claim items.

Does the project use a design-build delivery method? ☐ Yes ☐ No

Did the offeror perform work as the prime contractor? ☐ Yes ☐ No

INSTRUCTIONS: Clients should complete past performance questionnaire (PPQ) (pages 3 and 4 of this attachment) and review Offeror's Relevant Experience Attachment (to ensure contractor completed information is correct). Clients are also requested to complete Section 4 on page 2. The PPQ should be returned to the offeror to be submitted in response to GSA Solicitation No. 47PB0021R0021 and the indicated client reference should sign the PPQ. If requested by the offeror, then the client may submit the completed PPQ directly to Sebastian.asaro@gsa.gov).

INSTRUCTIONS: Please mark the adjective rating which best reflects your evaluation of the contractor's performance. The client may attach pages or increase the row height to any fields that request a written response if the box does not provide sufficient space. Refer to page 6 for the definitions of adjectival ratings. Narrative responses for each rating factor (quality, schedule/timeliness of performance, management, customer satisfaction, and general) are limited to 24,000 characters. If additional space is necessary, the blocks for explanations may be expanded or page(s) may be attached to the PPQ.

¹ “Constructability” means “...the effective and timely integration of construction knowledge into the conceptual planning, design, construction, and field operations of a project to achieve the overall project objectives in the best possible time and accuracy at the most cost-effective levels.” (Source: Construction Management Institute, Constructability (Best Practice) RT003-Topic Summary)

INFORMATION: Use the following to describe or verify the technical complexity of the project.

| Rating | Definition | Examples |
|--------|--|---|
| Low | The contract requires mature, proven technology or services of a non-complex nature, such as the production of simple items, or performance of simple operations. Contract requirements are simple, and efforts are routine. Highly skilled labor is not required in order to meet contract requirements. The contract may be for a follow-on, repetitive type, or commercial acquisition. Contract requirements can be accomplished with a low degree of management effort, and routine services may be performed with minimal supervision. | commercial-off-the-shelf supplies or parts (such as transistors) commercial services (such as grounds keeping) |
| Medium | The contract requires mature, proven technology or services of a moderately complex nature. While the technology may be moderately complex, and the services require skilled labor, no new technology is being developed, and the technology is being used for proven applications only. No new applications of technology are being performed. Contract specifications have moderate tolerances, and may have a routine delivery schedule. A moderate degree of management oversight is required to ensure accomplishment of contract requirements. | night vision goggles design and construction services for repairs and alterations to real property financial support services |
| High | The contract requires new technology or services, or a new application of existing technology or services, with a high degree of technical uncertainty. Performance requires state-of-the-art machinery, or highly skilled personnel. Contract specifications include stringent tolerance limits, and services must be performed to exacting standards. The contract may have an accelerated delivery schedule. A high degree of management effort is required to ensure accomplishment of contract requirements. | development of new aircraft development of new weapon system |

INFORMATION: Use the following adjective ratings and definitions in your evaluation of the Contractor's performance.

| Rating | Definition | Note |
|--------------------|--|--|
| (E) Exceptional | Performance meets contractual requirements and exceeds many to the Government's/Owner's benefit. The contractual performance on the element or sub-element being evaluated was accomplished with few minor problems for which corrective action taken by the contractor was highly effective. | An Exceptional rating is appropriate when the contractor successfully performed multiple significant events that were of benefit to the Government/Owner. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified. |
| (VG) Very Good | Performance meets contractual requirements and exceeds some to the Government's/Owner's benefit. The contractual performance of the element or sub-element being evaluated was accomplished with some minor problems for which corrective action taken by the Contractor were effective. | A Very Good rating is appropriate when the contractor successfully performed a significant event that was a benefit to the Government/Owner. There should have been no significant weaknesses identified. |
| (S) Satisfactory | Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the Contractor appear, or were, satisfactory. | A Satisfactory rating is appropriate when there were only minor problems, or major problems that the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. Contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract. |
| (M) Marginal | Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being evaluated reflects a serious problem for which the Contractor has yet identified corrective actions. The Contractor's proposed actions appear only marginally effective, or were not fully implemented. | A Marginal rating is appropriate when a significant event occurred that the contractor had trouble overcoming which impacted the Government/Owner. |
| (U) Unsatisfactory | Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the Contractor's corrective actions appear or were ineffective. | An Unsatisfactory rating is appropriate when multiple significant events occurred that the contractor had trouble overcoming and which impacted the Government/Owner. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. |
| (N) Not Applicable | No information or did not apply to your contract. | Rating will be neither positive nor negative. |
