**1. IDENTIFICATION OF SOURCES FOR CLOTH/TEXTILE COMPONENTS**

a. The offeror shall identify the names and addresses of those suppliers from whom each cloth or textile component item will be obtained for use in the performance of any resultant contract. In addition, for each cloth or textile component item, the offeror shall also identify the item’s manufacturer and address of the manufacturing facility. Failure to furnish this information with the offer may result in rejection of the offer.

b. The offeror shall complete the worksheet below that lists each component, the name and address of the supplier, and the address of the supplier’s manufacturing facility. The components used in each uniform item is listed in each uniform’s specification. Examples of components include fabric, thread, leather, wire, etc. The Military or Federal Specification, if applicable, is identified in each specification and Letter of Exception.

c. No change in the supplier(s) or manufacturer(s) listed below shall be permitted between the opening/closing date of the offer and the award, except where time permits and then only upon receipt of the contracting officer’s written approval.

d. Any change in the supplier(s) or manufacturer(s) listed by the offeror, and in any resultant contract, is prohibited unless it is specifically approved in advance by the contracting officer.

e. Offerors must list all components used for each uniform item. Offerors shall comply with the Berry Amendment. Noncompliance may disqualify the proposal from further consideration of an award. It is imperative this is completed correctly and all components are listed on the attached worksheet.
