**NOTICE FOR FILING AGENCY PROTESTS  
United States Coast Guard Ombudsman Program**

It is the policy of the United States Coast Guard (USCG) to issue solicitations and make contract awards in a fair and timely manner. The Ombudsman Program for Agency Protests (OPAP) was established to investigate agency protest issues and resolve them without expensive and time-consuming litigation. OPAP is an independent reviewing authority that is empowered to grant a prevailing protester essentially the same relief as the Government Accountability Office (GAO).

Interested parties are encouraged to seek resolution of their concerns within the USCG as an Alternative Dispute Resolution (ADR) forum rather than filing a protest with the GAO or some external forum. Interested parties may seek resolution of their concerns informally or opt to file a formal agency protest with the Contracting Officer or Ombudsman.

**Informal Forum with the Ombudsman.** Interested parties who believe a specific USCG procurement is unfair or otherwise defective should first direct their concerns to the applicable Contracting Officer. If the Contracting Officer is unable to satisfy their concerns, interested parties are encouraged to contact the U.S. Coast Guard Ombudsman for Agency Protests. Under this informal process, the agency is not required to suspend contract award performance. Use of an informal forum does not suspend any time requirement for filing a protest with the agency or other forum. In order to ensure a timely response, interested parties should provide the following information to the Ombudsman: solicitation/contract number, contracting office, Contracting Officer, and solicitation closing date (if applicable).

**Formal Agency Protest with the Ombudsman.** Prior to submitting a formal agency protest, protesters must first use their best efforts to resolve their concerns with the Contracting Officer through open and frank discussions. If the protester's concerns are unresolved, an Independent Review is available by the Ombudsman. The protester may file a formal agency protest to either the Contracting Officer or as an alternative to that, the Ombudsman under the OPAP program.

Contract award or performance will be suspended during the protest period unless contract award or performance is justified, in writing, for urgent and compelling reasons or is determined in writing to be in the best interest of the Government. The agency's goal is to resolve protests in less than 35 calendar days from the date of filing. Protests shall include the information set forth in [FAR 33.103\(d\) \(2\)](#). If the protester fails to submit the required information, resolution of the protest may be delayed or the protest may be dismissed. To be timely protests must be filed within the period specified in [FAR 33.103\(e\)](#). Formal protests filed under the OPAP program should be submitted electronically to [OPAP@uscg.mil](mailto:OPAP@uscg.mil) and the Contracting Officer or by hand delivery to the Contracting Officer.

**Election of Forum.** After an interested party protests a Coast Guard procurement to the Contracting Officer or the Ombudsman, and while the protest is pending, the protester agrees not to file a protest with the GAO or other external forum. If the protest is filed with an external forum, the agency protest will be dismissed.

**The Ombudsman Hotline telephone number is 202.372.3695.**

**The provision at FAR 52.212-2 Evaluation of Commercial Items is not applicable to this solicitation. In lieu of this provision, quotes will be evaluated in accordance with FAR 13.106-2 based on the criteria listed below. The evaluation factors below are the mandatory minimum requirement for eligibility for evaluation. Failure to comply with the requirement may lead to outright rejection of the quote.**

**Evaluation Criteria**

The government anticipates selecting the best-suited contractor from initial responses, without engaging in

**USCGC Harriet Lane (WMEC-903)**  
**Harlan Anchor Windlass Repairs FY23**  
**70Z080-22-Q-MECP0029**

exchanges with contractors. Contractors are strongly encouraged to submit their best technical solutions and price in response to this RFQ.

Once the government determines the contractor that is the best suited (i.e., the apparent successful contractor), the government reserves the right to communicate with only that contractor to address any remaining issues, if necessary, and finalize a contract with that contractor. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined pertinent at the sole discretion of the government, the government reserves the right to communicate with the next best-suited contractor based on the original analysis and address any remaining issues.

The Government will select the quote that is most advantageous to the Government based on the following factors:

- A. Technical
- B. Past Performance
- C. Price

**Technical Evaluation:**

**(1) Technical Approach**

Submit a legible overview-planning document (PD) with the following characteristics:

- Graphical in format and outlines the strategy for ensuring that this requirement is completed on or before the contract completion date.
- The planning document shall include at least:
  - 1) Proposed schedule, resources, completion-dates, float, and major millstones for the various tasks required completing this contract and
  - 2) Identify a list of items that may pose the most contract schedule risk and approach to mitigate or eliminate each risk.

**Past Performance:**

The Government may utilize any references provided by the Contractor, along with information available from past contracts/orders with the USCG and any information found using sources such as Contractor Performance Assessment Reporting System (CPARS) to determine the contractor's past performance within the last three (3) years. The Government reserves the right to limit or expand the number of references it decides to contact and to contact references other than those provided by the contractor. The contractor should provide at least two relevant past performance evaluations within the last three (3) years. Past performance less than satisfactory may not be considered for award.

**Price:**

The contractor shall provide pricing as requested in Attachment 1 – Schedule of Services 70Z080-22-Q-MECP0029. The contractor's price shall represent the best price in response to the request for quote. The price shall be evaluated to determine fairness and reasonableness. Additional detailed information may be required to determine price reasonableness. *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

**Evaluation method**

The Government will evaluate proposals using a tradeoff process to determine the best overall value and consider award to other than the lowest priced offeror or than the highest technically rated offer. The evaluation factors above are the mandatory minimum requirement for eligibility for evaluation. Failure to

**USCGC Harriet Lane (WMEC-903)  
Harlan Anchor Windlass Repairs FY23  
70Z080-22-Q-MECP0029**

comply with the requirement may lead to outright rejection of the quote.

**The relative importance of technical and past performance combined, are more important than cost or price.**

*The Coast Guard reserves the right to consider award to other than the lowest-priced offeror or the highest technically rated offer.*

**Quoters are required to include a completed copy of the provision at 52.212-3 Offeror Representations and Certifications – Commercial Items, Alternate I of 52.212-3**

(3) The contractor must submit any proposal for adjustment under this clause within 5 days from the date of receipt of the written order.
