The individual state scorecard shall be the basis for the Performance Metrics Tracking Report (PMTR).
The Contractor shall adhere to the following service levels in responding to requests for Services:

| Performance Metric | Goal | Performance Target | Description | Calculation | Frequency of Review |
| :---: | :---: | :---: | :---: | :---: | :---: |

Contractor shall survey individual Purchasing Entity requestors and designated hiring managers monthly via an electronic customer satisfaction survey. Said survey will measure Purchasing Entity satisfaction with the resources placed by the Contractor and will measure Contractor's processes. The survey will highlight positive and negative points in order to identify areas for improvement. The survey questions will be provided to the Contractor by the Lead State and shall remain set survey questions unless Lead State requests changes. Contractor shall compile results from survey responses and publish survey results to the Lead State. Data shall be available for viewing via Contractor's VMS solution.

The Contractor will be allowed a sixty (60) day grace period during the implementation phase of the Contract to ramp up services without scoring on the performance metrics. After the sixty (60) day grace period, tracking via the Performance Metrics Tracking Report will begin. The first PMTR shall be due by the Contractor to the Lead State one (1) month after the grace period ends.

For the initial 12 month period, Contractor shall submit to the Lead State the PMTR monthly showing performance metrics, performance targets, survey results and back up data used to generate the report. The PMTR shall be by state and include all Purchasing Entities within that state. Following the initial 12 month period,

the PMTR will be required on a quarterly basis. This data shall be available for viewing via Contractor's VMS solution.

The Lead State reserves the right to request monthly or quarterly submission of the PMTR showing performance metrics, performance targets, survey results and back up data used to generate the report for individual Participating Entities or Purchasing Entities, rather than by individual state.

Contractor's PTMRs shall be reviewed for the Contractor's ability to meet or exceed the contractual metrics and feedback received through the customer satisfaction survey. This review shall be made by the Lead State or its designee.

## CORRECTIVE ACTION PLAN

If any performance failures are identified across the Contract, the following actions will be implemented by the Lead State in accordance with Section 33 of the contract to ensure the level of performance improves

1. A discussion will take place with the Contractor. The Contractor will be given a warning, and a plan will be developed to improve on the problem areas within two (2) months.
2. If after the two months the contractual thresholds are not met, the Contractor will be placed on probation, and given three (3) months to improve their overall service score.
3. If within the three (3) month probationary period the performance thresholds are not met, the Contractor(s) will be required to rebate each Purchasing Entity which had provided revenue to the Contractor three percent (3\%) of the immediately preceding month's revenue generated from VMS fees.

Contractor agrees to identify and calculate, based on item \#3 above, all service credits due for performance failures, or failure to meet any service level. All service levels will be computed on the basis detailed in the tables above. Contractor will ensure that all service credits due the state are provided automatically without requiring the state to submit a claim or request, and are clearly identified on the service credit note to which they are posted (including specifically identifying on the credit note the failure to which the service credit applies). Service credits will be issued no later than 60 days after such failure to meet a service level occurs. The SLAs will be reviewed monthly by the state and the Contractor to identify any issues that may need immediate attention. Contractor will begin measuring the service levels immediately after completion of implementation and migration, beginning with the next calendar month.

The Contractor shall meet periodically, not less than annually, at the request of the Lead State and NASPO ValuePoint for Contract discussions. These discussions will focus on current market, contract pros and cons, suggestions for states, Lead State, Participating Entity, or Purchasing Entity use, participation, assistance, marketing, feedback, etc.
