

ADDENDUM NO. ONE
REQUEST FOR PROPOSALS
THORNTON TRANSIT STUDY
PROJECT NO. 22-102
CITY OF THORNTON, CO

TO: Prospective Proposing Firms and all others concerned

DATE: July 27, 2022

PURPOSE: To provide additional information and clarification to the solicitation documents for the above-referenced Project.

1. The following questions and answers are provided for additional clarification to the RFP.

Question 1: "In the objectives there is mention of "realistic ridership projections." What is meant by that? For example, do you want projections that are output from a travel demand model? Are there other specific methods for projecting future ridership that you have in mind?"

Answer 1: City of Thornton's intent of the RFP is for Consultants to propose that answer. Thornton believes output from a travel demand model may be acceptable. What is desired are numbers that are not outrageous and unreachable so as to implement a proper-sized transit system for the city;

Question 2: Can the City provide a possible Master Plan if one exists?

Answer 2: Yes, below is the link to the Transportation and Mobility Master Plan. Chapters 8 is transit and Chapter 11 is implementation.

<https://gocot.net/TransportationPlan>

2. The Pre-Proposal Conference Sign-in Sheet is attached for additional information.
3. All other terms and conditions shall remain unchanged except as provided by this Addendum. Proposing firms must acknowledge receipt of this Addendum in their Proposal.
