Notes:

This bid is being issued to hire a qualified firm to carry out the scope of work as described below:

The scope of work for the replacement Tennyson Middle School project is a comprehensive, two-story middle school replacement facility located at 6100 Tennyson Dr. in Waco, Texas. The new building is approximately 180,000 square feet, utilizing tilt wall construction and structural steel for the primary structure. Typical interior environments include classroom neighborhoods, library, gymnasiums, cafeteria and commercial kitchen, administration facilities, athletics support facilities and locker rooms, and performing and fine arts rehearsal and classroom spaces. The building is to be constructed on a roughly 15-acre site and include a new 400 meter 8-lane track with a natural grass field.

The new facility will be constructed while the existing Tennyson middle school facility remains operational. Once the new facility is completed, the school will transition into the new facility, and the existing facility will be demolished to allow for the remainder of the site work to be completed.

The Anticipated budget for this project is \$ 63,000,000.00
